Office Action Summary

Art Unit: 1712

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6 and 8-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hoëne. The rejection is applied as in the previous Office action. The reference teaches that the graft and/or copolymer mixture is used in amounts of 0.1 to 25 percent. The graft and/or copolymer mixture contains addition polymer and may contain additional polyether free thermoplastic polymer without losing the advantages provided by the graft/copolymer mixture, i.e. improved stability. See col. 8, lines 28-49 and col. 9, lines 36-41. It is apparent from the reference that the graft and/or copolymer mixture stabilizes (compatibilizes) the composition even when additional thermoplastic addition polymer is added in amounts up to 30 percent. Optimizing the amounts of graft and/or copolymer added to stabilize (compatibilize) the resin system with or without additional thermoplastic polymer would have been obvious to one of ordinary skill in the art. See *In re Boesch* 205 USPQ 215 (CCPA 1980).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

Art Unit: 1712

will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
